You know I've always wanted <sup>to</sup> study chemistry – well, I've just had great news. The university has given me a place on the chemistry course! I've decided to do the four-year course – it should be really interesting. The course starts in October and I've arranged to stay in one of the student houses near the college. I can't afford to pay the fees myself so my parents have promised to help me. And I can get a student loan as well. Uncle Jim has offered to give me a job in his office during the summer, so I expect to make some money then. By the way, we're having a party here next weekend. Would you like to come? You can bring Helen if you like. Everyone here would love to meet her! Annie X
